

Good
Afternoon,
Professor!

Table of contents

01

Introduce myself

Publications, Activities,
Honor and Awards

02

Courses

Some courses studied
at University

03

Graduated Thesis

Link Prediction on the Knowledge Graph based on
Rotation Embedding method

01

Introduce

Introduce myself, Publications, Activities, Honor and Awards

My name is HUYNH Doan Minh Ngoc

-  Bachelor of Science in Computer Science
-  University of Science, VNU-HCMC
-  GPA: 3.82 / 4.00
-  Valedictorian of the High-Quality program
in Information Technology

Publications

01

Journal Q2

03

Publications

02

Papers in 02 International
Conferences

Activities

01 – SheCodes Hackathon

- Held in 2020 in HCMC
- First Place with VGO team

02 – ICANN 2021 (rank C)

- 30th International Conference on Artificial Neural Networks
- Presentation of the accepted paper

03 – ICCCI 2021 (rank B)

- 13th International Conference on Computational Collective Intelligence
- Presentation of the accepted paper

04 – FDI Tournament 2021

- Held in 2022 in HCMC
- Champion
- Best Innovation Idea prize

Honor & Awards

14

Scholarships

10 Semester Scholarships
4 Full Scholarships (4 yrs)

Gold Table of Achievements

For top 5 highest GPA

Graduated as
**Valedictorian of the
High-Quality program**

University of Science

Excellent Thesis Topic

The Science and Technology
Research Student Award 2021

Graduated with
Excellent Degree

VNU-HCMC

02

Courses

There are some courses at University

Courses in University

- Data Mining

- Machine Learning

- Pattern Recognition

- Data Visualization

- Graph Mining

03 Thesis

Link Prediction on the Knowledge Graph
based on Rotation Embedding method

Link Prediction on the Knowledge Graph based on Rotation Embedding method

What is Knowledge Graph?

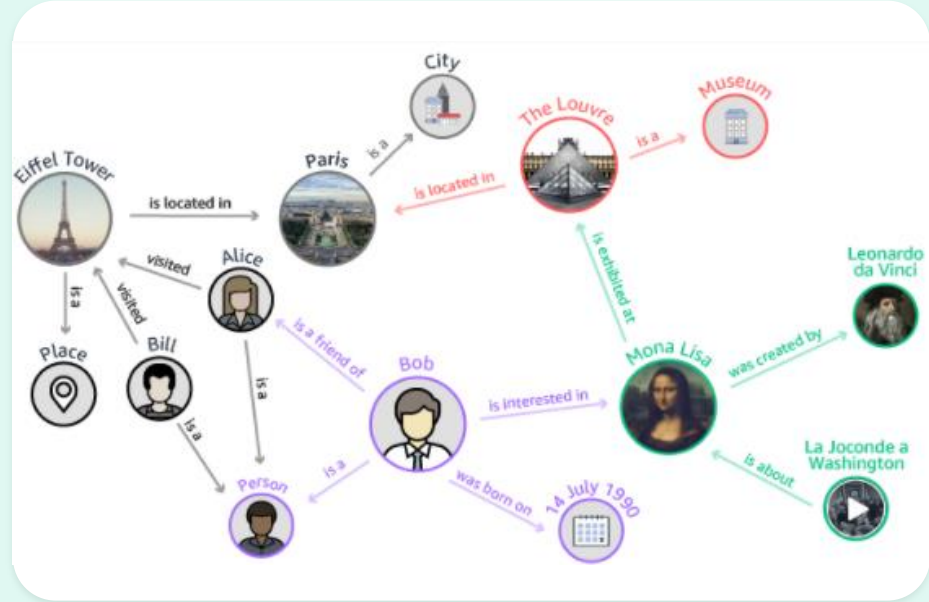

Definition

A structure representation of information that describes the real world

Notation

$KG = (E, R, \Delta)$, where
 $\Delta = \{(h, r, t) | h, t \in E, r \in R\}$

What is Knowledge Graph?

Entities

Or the vertices of the Knowledge Graph

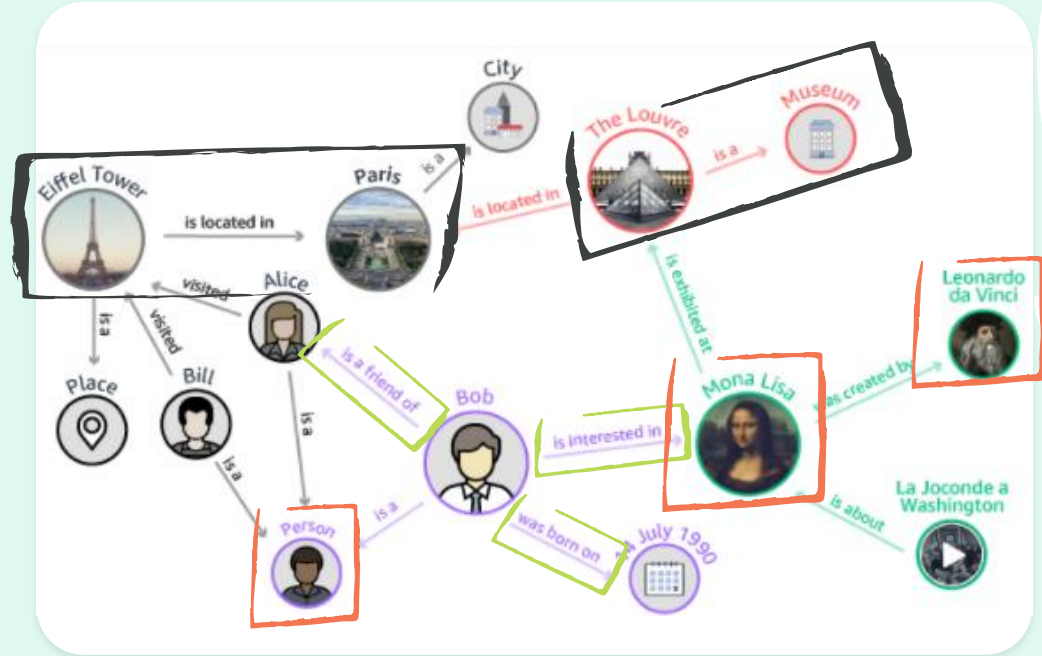

Relations

Or the edges of the Knowledge Graph

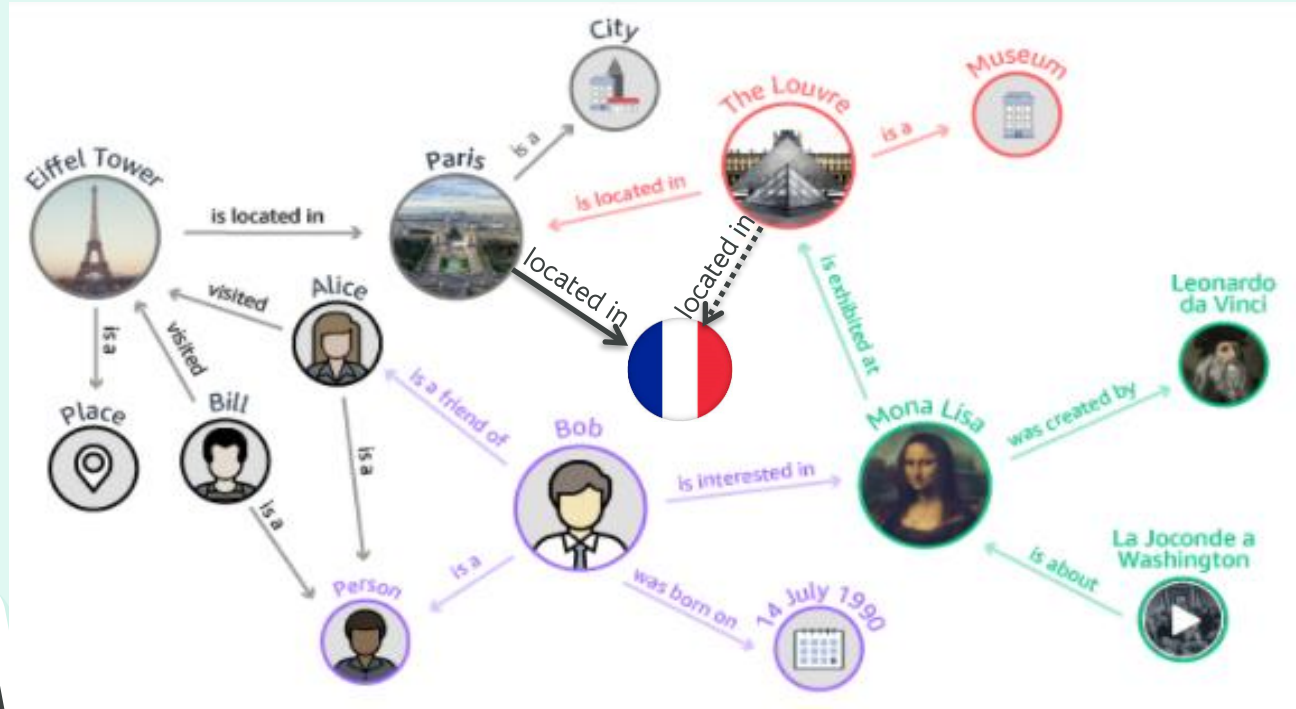

Triplets

Include 2 entities and a relation

What is Link Prediction?

Approaches to Link Prediction

Matrix Factorization

- Bilinear
- Non-bilinear

Geometric

- Pure Translation
- Additional Embeddings
- Roto-translation

Deep Learning

- Convolution
- Capsule
- Recurrent

Geometric Approach

Embedding the graph into another space

- Entities \mapsto Points
- Relations \mapsto Transformations

Thanks!
